E-mail: gavin@haisi-bh.com

COMPANY PROFILE

Jiangsu Baichuan Outdoor Products Co., Ltd., located in the Technology Industrial Park of Caiqiao Town, Binhai County, Yancheng City, Jiangsu Province, occupies 13,000 square meters of land with 10,000 square meters of modern production facilities. As a professional manufacturer of outdoor leisure products, we employ 120 skilled workers specializing in the R&D and production of SUP, Ice-tube, SPA pool, gymnastics mats, kayaks, and inflatable boats.

Integrating product design, intelligent manufacturing, and global marketing, we maintain a professional R&D team and rigorous quality control system. Our 100% export-oriented products are primarily distributed in European and American markets, including the United States, France, and Germany. Certified by the BSCI Social Responsibility Audit, we adhere to our core values of "Integrity First, Quality Excellence, Customer Focus, and Innovation Drive". Through technical expertise, premium services, and efficient solutions, we are committed to becoming the preferred strategic partner for international clients, fostering mutual growth and shared success.

All-Around SUP

The All-Around SUP offers versatility and excellent stability, ideal for recreational paddling, yoga, fishing, and calm to mildly flowing waters. However, it lacks speed for racing, underperforms in specialized scenarios, and hard boards are less portable. It suits beginners, families, casual users seeking multi-activity fun, and adventurers needing a single board for diverse purposes.

FUSION

10'6"x32"x6"

PRODUCT PARAMETERS

Model	SP320
Length	10'6" / 320cm
Width	32" / 81cm
Thickness	6" / 15cm
Net Weight	26.7lbs / 12.1kg
Gross Weight	30.6lbs / 13.9kg
Maximum Payload	286lbs / 130kg
Maximum Air Pressure Value	15PSI
Package Size	88*38*25cm

Luggage Strap

Front d-ring for securing cargo

Handle

Heavy duty carry handle

Tri-Fin Set

One slide center fin and two small side fins

Touring SUP

The Touring SUP excels in speed and straight-line efficiency, ideal for long-distance exploration or racing training in calm waters. Its advantages include low glide resistance, extended endurance, and ample storage space; however, it suffers from less stability, reduced maneuverability, and higher skill requirements for beginners. It suits experienced endurance paddlers, long-distance adventurers, and advanced users prioritizing efficient glide performance.

CRUISER

11'6"x35"x6"

PRODUCT PARAMETERS

Model	SP350A
Length	11'6" / 350cm
Width	35" / 89cm
Thickness	6" / 15cm
Net Weight	30.8lbs / 14kg
Gross Weight	35.2lbs / 16kg
Maximum Payload	330lbs / 150kg
Maximum Air Pressure Value	15PSI
Package Size	97*44*23cm

Handle

Heavy duty carry handle

Valve

Push push Valve for quick and easy inflation and deflation

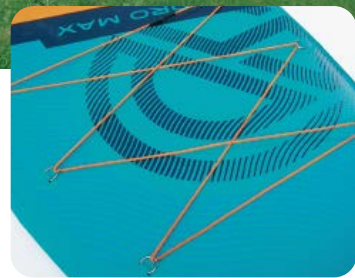

Tri-fin set

One slide center fin and two small side fins

HYDRO MAX 11'6"x35"x6"

PRODUCT PARAMETERS

Model	SP350B
Length	11'6" / 350cm
Width	35" / 89cm
Thickness	6" / 15cm
Net Weight	30.8lbs / 14kg
Gross Weight	35.2lbs / 16kg
Maximum Payload	330lbs / 150kg
Maximum Air Pressure Value	15PSI
Package Size	97*44*23cm

Racing SUP

The Racing SUP is engineered for speed, featuring a narrow, elongated, and streamlined design to maximize propulsion efficiency in calm waters or competitive settings. Its advantages include exceptional speed performance, minimal glide resistance, and responsive handling; however, it has lower stability, a larger turning radius, and demands high balance skills and physical stamina. It is tailored for professional or advanced paddlers, competitive race enthusiasts, and elite players prioritizing top-tier speed and track performance.

APEX

14'x30"x6"

PRODUCT PARAMETERS

Model	SP427
Length	14' / 427cm
Width	30" / 76cm
Thickness	6" / 15cm
Net Weight	39.6lbs / 18kg
Gross Weight	35.2lbs / 16kg
Maximum Payload	330lbs / 150kg
Maximum Air Pressure Value	15PSI
Package Size	88*45*30cm

Stringer

The carbon fiber textured reinforcing strips effectively enhance the compressive resistance

Handle

Heavy duty carry handle

Tri-fin set

One slide center fin and two small side fins

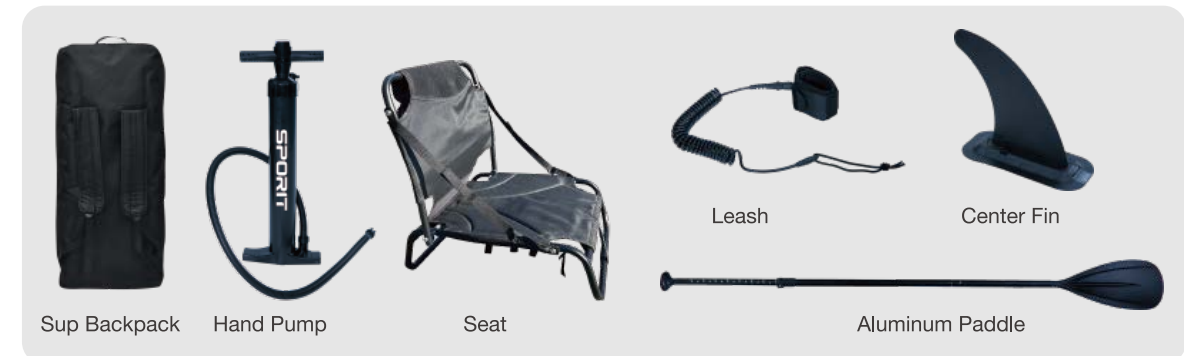

Fishing SUP

The inflatable fishing SUP is designed for angling, featuring side floats for enhanced stability and practical accessories like rod holders, storage compartments, and anchor points. Its advantages include strong resistance to waves, portability with easy storage, and high functional integration, ideal for prolonged calm-water fishing. However, the added floats and accessories increase glide resistance, reduce speed, and limit maneuverability. It targets fishing enthusiasts, recreational family users, and multi-scenario adventurers seeking a balance between outdoor exploration and practical utility.

PRODUCT PARAMETERS	
Model	SP330F
Length	11'6" / 335cm
Width	42" / 107cm
Thickness	7" / 18cm
Net Weight	441lbs / 20kg
Gross Weight	48.5lbs / 22kg
Maximum Payload	286lbs / 130kg
Maximum Air Pressure Value	15PSI / 2.5PSI
Package Size	92*62*55cm

Seat

Metal support seat

Valve

push-push valve for quick and easy inflation and deflation

Footrest

Adjustable foot rest

Inflatable Kayaks

Inflatable kayaks are made from high-density PVC and Drop-stitch, offering lightweight, foldable portability and easy storage. Multi-air chamber designs enhance safety, while anti-roll hulls ensure stability in calm waters like lakes, rivers, or mild adventures. Ideal for kayaking enthusiasts, families, campers, travelers, and space-conscious outdoor lovers, particularly those prioritizing portability, affordable entry-level options, or spontaneous water-based activities.

Valve

Push-push valve for quick and easy inflation and deflation

Luggage Strap

Front d-ring for securing cargo

D-Ring

Four stainless steel D-rings can fix the seat

PRODUCT PARAMETERS

Water Bike

Crafted with durable drop-stitch material that inflates rigid for a stable, bike-like ride; deflates and folds compactly for effortless portability and storage. Quick inflation in minutes with the included pump; rides like a land bike for easy learning and control. Enjoy unique cycling fun and exercise on lakes, rivers, and calm waters. Tough and resilient, it's your lightweight key to exploring waterways with freedom!

Bicycle Chain

High-grade wear-resistant and anti-slip chain

Bicycle Seat

A comfortable seat that can be conveniently adjusted in height

Drive Shaft

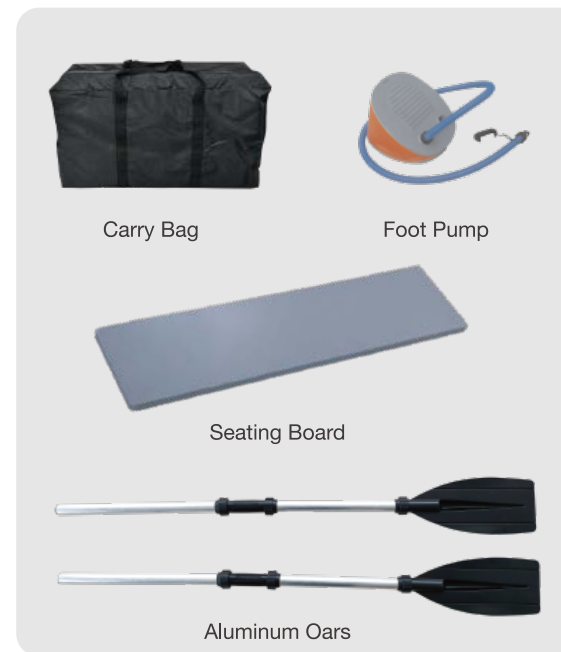

The professional transmission device facilitates the steering operation

Boat

Experience unmatched safety and durability with our inflatable fishing boat. Engineered with triple independent air chambers, it remains fully buoyant even if one is compromised – your ultimate unsinkable safeguard. It tackles rugged water confidently with a military-grade rip-stop PVC exterior that shrugs off snags and a puncture-resistant 1000D drop-stitch floor designed to handle sharp rocks and debris. Compact enough to pack into your trunk, you can be set up and fishing your favorite spot – whether a shallow creek or deep lake – in just 10 minutes. Your adventure-ready, unsinkable fishing fortress awaits.
